## DIMMER COMPATIBILITY

OK	Dims to < 15%		
OK	Dims to 15 - 30%		
NC	Not Compatible		

## 90+ LIGHTING NOTES

- 1) This dimmer compatibility chart is provided by 90+ Lighting as a guidance for selecting a dimmer and lamp combination.

  2) The results may be different for each application depending on the installation conditions.

  3) 90+ Lighting reccomends to perform a previous test before the installation to verify the dimmer compatibility.

4) We recommend using a 1/5 loading factor for incandescent dimmers when using with 90+ lamps.

For example: a 400W dimmer should be loaded with a number of lamps whose combined power do not exceed 80W.
