## DIMMER COMPATIBILITY

Dims to < 15% OK Dims to 15 - 30% Not Compatible OK NC

## 90+ LIGHTING NOTES

1) This dimmer compatibility chart is provided by 90+ Lighting as a guidance for selecting a dimmer and lamp combination.

This diminier compatibility chart is provided by 90+ Lighting as a glubalice to selecting a diminier and ramp combine 2) The results may be different for each application depending on the installation conditions.
90+ Lighting recommends to perform a previous test before the installation to verify the dimmer compatibility.
We recommend using a 1/5 loading factor for incandescent dimmers when using with 90+ lamps.
For example: a 400W dimmer should be loaded with a number of lamps whose combined power do not exceed 80W.
