## 90+ LIGHTING NOTES

- 1) This dimmer compatibility chart is provided by 90+ Lighting as a guidance for selecting a dimmer and lamp combination.
  - 2) The results may be different for each application depending on the installation conditions.
  - 3) 90+ Lighting recommends to perform a previous test before the installation to verify the dimmer compatibility.
  - 4) We recommend using a 1/5 loading factor for incandescent dimmers when using with 90+ lamps.
- For example: a 400W dimmer should be loaded with a number of lamps whose combined power do not exceed 80W.
